Penguin Fine Motor Color Cards

Insructions: Print on cardstock paper ... cut out and laminate. Children pick a penguin card and then place objects that are the same color as the penguin on top of the card.. We used buttons ... playdough ... and colored mini clothespins.

This activity contains penduin cards with and without the color names and also penguin cards with color name strips that can be placed in the blank space on the card. we use velcro to secure the name strips.

I have also included a large size penguin that children pick a color strip and place it on the blank rectangle on the penguin and then place the matching color hat and scarf on the penguin.
